

## Vascular Screening

easier than you might think.  
faster than you might assume.  
more important than you realize.

Soma Imaging is proud to provide...

- Carotid (neck arteries) Ultrasound for Blockage
- Abdominal Aorta Ultrasound for Aneurysm
- Peripheral Vascular Disease Screening
- Additional Screening Options

Without pre-screening, you  
may never know you are  
at risk until it's too late!

**Take Control.**

It's as easy as it is necessary!

Lakeland

**Did You Know?**  
Stroke is the third leading cause of death in the United States!  
More than half of stroke victims show no warning signs of an imminent stroke or aneurysm!  
80% of strokes are preventable!  
Everyone has some level of stroke risk...everyone!  
An aneurysm that ruptures has an 80% fatality rate, but if the onset is detected and treated the risk plummets to 2-3%!  
Proper vascular screening can detect symptoms and risks even if you show no outside warning signs!  
Vascular screening is fast, easy and non-invasive. In fact, most tests take only a few minutes!

## Are You Gambling With Your Health?

"Vascular disease can lead to stroke, the #1 cause of disability in the USA. Vascular screening can lead to prevention, the #1 reason why you need it!"

Vascular Screening...it's a Life Decision.
